MINI HERCULES TOW WITH A PICKUP

The **Olympus mini-Hercules pugmill system** was designed with portability in mind. Weighing in at 10,000 lbs, you can tow the mini-Herc with your 3/4 ton pickup truck! **Affordable with Quick Delivery!**

Mini-Hercules delivers a respectable 80tph output, from a 7cy bin (with bin extensions raised). The Danfoss computer controls are easy to use. Variable speed controls on the belt, water and asphalt pumps provide precise dosing for accurate mix designs. Adjustable jacks and legs make for a quick setup. Mini-Herc is field serviceable with high-end US & European OEM parts. Rugged and reliable construction provide years of dependable service.

Options include a belt scale, water pump, flow meter, asphalt pump, and split bin with split gate.
